Dear Friends,

Here is a brief newsletter (attached) for the therapy group. I sent out 15 invitations and there are 9 of us who have shown interest. I feel this is very timely. Included in teh newsletter is information about my new book on therapy. If you have seen the info before be sure to skip this.

What I would appreciate from each of you is information that you would like to share with the rest of us in the next newsletter. I will include your name. Please start off with your city, your work setting and something about your work or intended work in APD and in therapy for it. In this way each person will start to get to know the others in the group. Please include what you would like to get out of the group.

I would like to keep the momentum going so PLEASE get this brief info to me in the next week. If you can't, please let me know and with your permission I will include info from the info that you sent me.

Best wishes,
jack
