

IGAPS 8th Annual Conference

September 15-16 2022

Saint Lukes Hospital, Kansas City, MO

All About Auditory Processing
~Debunking Myths~
~Promoting Facts~

"We are a diverse group of colleagues specialized in diagnostic and habilitative management of Auditory Processing Disorders (APD), serving people worldwide. We believe that this is best achieved through professional competence, mutual respect and working cooperatively.

Course Fee - \$250 per person (students - \$50)

Fee includes lunch both days for In-Person Attendees
Once In-person registration is filled, there will be unlimited virtual spots available.

Checks made payable to IGAPS and mailed to:

Kim Casey - Little Listeners 6720 Jamestown DR, Alpharetta GA 30005

Credit card payments accepted for a \$10 per person processing fee

Venmo option available for free: @Christa-Reeves

Kim Casey: 770-744-2451 or email; kim@littlelisteners.com Fax 770.573.6399

Hotel - Courtyard by Marriot, Country Club Plaza 4600 J C Nichols Pkwy Kansas City, MO 64112 (816) 285-9755

\$129 per night - mention IGAPS group
*Includes Breakfast and Parking
*Shuttle service available by reservation directly with the hotel
Airport – MCI - Kansas International Airport
Registration form on the last page

IGAPS is a non-profit Organization committed to high standards. At this time the information obtained from participants for the purpose of conference registration is only available to CE Administrators and Treasurer. The information includes payment methods, special requests, names and personal details. Credit card numbers will not be saved for future use. The roster is saved in online storage. No participant information will be shared or sold to third parties.

Personal data will not be made public.

All information and content in their presentation will be available online after the event, in a pdf format, unless otherwise stated by the speakers. All speakers have exclusive property rights over the entire content of their presentation, unless otherwise stated by them. Information on the IGAPS website will only serve as educational material to those who seek to gain such knowledge.

Thursday 15th September 2022 8:00-8:15 AM: Intro-Jack Katz Dr. Max Stanley Chartrand 8:15 AM-12:30 PM 15 mins break 11:00-11:15 AM 1 hour Lunch 12:30-1:30 PM 1:30- 5:45 PM 15 mins break 3:00-3:15 PM 8.25 contact hours Friday 16th September 2022 9:00 AM: Intro-Jack Katz Sucheta Kamath 9:15 AM-12:30 PM: 15- minute break from 10:45-11:00 AM 1 hour Lunch 12:30-1:30 PM 1:30- 4:45 PM 15 mins break 3:00-3:15 PM 6.25 contact hours

Breaks and lunches are not part of AAA and ASHA
CEUs.

Kavita Kaul, AuD, SLP 804-519-6460 kkaul@hotmail.com

Little Listeners is approved by the American Academy of Audiology to offer Academy CEUs for this activity. The program is worth a maximum of 1.20 CEUs. Academy approval of this continuing education activity is based on course content only and does not imply endorsement of course content, specific products, or clinical procedure, or adherence of the event to the Academy's Code of Ethics. Any views that are presented are those of the presenter/CE Provider and not necessarily of the American Academy of Audiology. This course is offered for 1.40 AAA CEUS (Intermediate level, Professional area)

International Guild of Auditory Processing Specialists

Intermediate Level

1.45 ASHA CEUs

Cancellation Policy: Full refund will be offered up prior to 2 weeks of the course. 50% refund for cancellation within 2 weeks of the course. Email kkaul@hotmail.com

In case of cancellation of the course, registration fee will be applied to the new dates offered unless participant requests a refund via email to kkaul@hotmail.com

Please indicate any special needs or any other dietary needs at the time of registration

All participants are required to take a quiz to complete learner assessment requirement and program evaluation at the end of the course in order to obtain a **certificate of participation and be reported for any Continuing Education credits (including ASHA CEUs)**. This course is not focused on specific services or products.

No partial credits allowed.

Unless otherwise noted, no course planner or presenter has disclosed any relevant financial or nonfinancial relationships.

RESOLUTION POLICY FOR COMPLAINTS OR CONCERNS RELATED TO THE CONFERENCE

(All concerns and complaints will be addressed via email within 48 hours)

The Continuing Education committee tries to maintain high standards of commitment and quality. Your feedback is very important to us. Please email us your concerns or complaints. We will respond within 48 hours to try to resolve the issues to the best of our abilities and to your satisfaction. Thank you for your patronage and support. We look forward to your participation.

Email concerns or complaints to kkaul@hotmail.com

Copyrights Protection

We at International Guild of Auditory Processing Specialists (IGAPS) recognize and respect intellectual property rights and are committed to fulfilling our moral and legal obligations with respect to our use of copyright-protected works. IGAPS sets forth these policies:

- 1. The information presented at IGAPS conferences may not be reproduced without permission including any copyrighted work in print, video or digital form in violation of the law. Works are considered protected even if they are not registered with the U.S. Copyright Office or any registering agency outside the U.S. and even if they do not carry the copyright symbol (©). Copyrighted works include but are not limited to: printed articles from publications, electronic articles in online publications, online videos, movies, TV and radio programs, recorded music performances, images, training materials, manuals, documentation, software programs, databases, websites and blogs. In general, the laws that apply to printed materials also apply to visual and digital formats such as websites, streaming media, music downloads, mobile apps, CDs and DVDs.
- 2. To obtain permission to reproduce copyrighted works outside of IGAPS and/or to use such works in ways that are not covered by prior agreements, please request permission by contacting us via our website https://www.igaps.org/contact
- 3. In case of potential copyright infringement, please bring the matter to the attention of IGAPS personnel via our website contact page https://www.igaps.org/contact

Thursday, Oct 7th 2021 8:00-8:15 AM APD Perspectives Introduction Dr Jack Katz Cerumen Management & Video Otoscopy in the Audiology & Dispensing Practice Dr. Max Chartrand 8:15 AM-12:30 PM 15 mins break 11:00-11:15 AM 1 hour Lunch 12:30-1:30 PM 1:30-5:45 PM 15 mins break 3:00-3:15 PM 8.25 contact hours Course Outline 1. Introduction: History & Scope of Practice Relative to Cerumen Management in Dispensing 2. Video Otoscopy Physiological biomarkers of the external auditory canal Landmarks of the human tympanic Membrane FDA Red Flag Review Introduction to External Auditory Canal Neuro-reflexes Fitting Considerations 3. Understanding Cerumen Impaction & EAC Anomalies Differentiating keratosis obturans vs external ear cholesteatoma Basic bacteriology of the external meatus Role of keratin and other markers of a healthy ear 4. Review of Diseases of the Ear & Referral Differentiation with audiometric data Differentiation with audiometric data Differentiation with audiometric data Differentiation with uning fork tests (resolving own voice, CAD complaints) Differentiation with impedance audiometry Hands-on Demonstration/Exercises by Attendees (one hour) 5. Medicolegal Considerations Medicolegal considerations per IHS updated model law Insurance Regulations	Session and 3 Learner Outcomes 1. Explain FDA regulation relative to otoscopy, protocols for red flag referral and case history discovery relative to referral and dispensing tasks. 2. Describe diseases of the ear, neuroanatomy, own- voice biofeedback, and the role of EAC mechanoreceptors and neural reflexes as they present in the dispensing and audiology practice and differentiate between impacted cerumen, keratosis obturans, EAC cholesteatomas and other abnormalities. 3. Explore research implications in psychoacoustics, central auditory and cortical processing relative to neurophysiology and external ear anomalies. 4. Demonstrate competence in video otoscopy and cerumen management within scope of practice and execute appropriate patient disclosures, consent, and ear care instructions for hearing aid users. 5. Conduct interdisciplinary communication, referral, and follow-up within a medicolegal and ethical framework.	Relevant Financial Relationship Max Stanley Chartrand has received an honorarium for this presentation by IGAPS	Relevant Non-Financial Relationship None

	dive deep into the interplay			
between one's own EF				
skills and of those that we coach,	skills and of those that we coach,			
teach, or manage.	teach, or manage.			

Biographical Information of Speakers

Max Stanley Chartrand, BC-HIS, CSP, Ph.D. (Behavioral Medicine) has served on the advisory committees to the American Tinnitus Association, the Better Hearing Institute, and Audiology Online, and is a professional member of the Society of Behavioral Medicine and serves on the Council for Nutritional and Environmental Medicine. He also serves on the Arizona licensing committee for speech pathologists, audiologists, and hearing aid providers.

In 1994, he was recipient of the *Joel S. Wernick Excellence in Education Award*, and has published and lectured extensively throughout the world over the past four decades. In 2017, he was awarded the highest designation for professional speakers by the National Speakers Association. In 2020, he was named to *Who's Who in America*.

Dr. Chartrand has had extensive experience in his 45-year career in the hearing health field, as CEO for a hearing instrument manufacturer, guest consultant with multimillion dollar year-over-year annual hearing aid sales, licensing exam writer, expert witness for state attorneys general, and as an advisor to a United States FDA Commissioner (1993-1997).

At age 3 he became severely hearing impaired and later profoundly deaf. He has utilized hearing aid and assistive technology for many years until cochlear implant technology and assistive devices were advanced enough to accommodate his profound deafness. In 1993 he received his cochlear implant.

He believes that the market has grown exponentially faster than the industry's ability to accommodate it. Now, he says, in spite of major disruptions and market confusion brought on by outside forces, this is the time that can be the most exciting and empowering to be in the hearing healthcare field. However, much will depend on a complete transformation in consumer education and professional preparation to reorient everyone to the exciting but crucial health aspects of hearing care.

Contact for this session: Max Stanley Chartrand, 2419 N Sandstone Place, Casa Grande, AZ 85122, (719)251-4391—text only.

Sucheta Kamath, M.A., M.A., CCC-SLP, BC-ANDS is an award-winning speech-language pathologist, a TEDx speaker, and a tech-entrepreneur who has created ExQ®; a cloud-based innovative digital curriculum for the middle and high school students designed to directly personalize learning and build Executive Function skills through games, error analysis, and metacognitive lessons. She is the host of the podcast Full PreFrontal®: Exposing the Mysteries of Executive Function: where her invited guests range from neuroscientists, researchers, educators, learning specialists, journalists, and leaders and has produced more than 200 episodes and has had close to a million listens. As a life-long learner, educator, and mentor, Sucheta has been the recipient of multiple professional awards for developing innovative training programs designed to teach mastery of Executive Function, attention, memory, higher-order cognition, social-cognition, and self-regulation. Finally, Sucheta serves on many non-profit boards and is deeply committed to racial healing and interfaith community dialogue. For the past four years, she founded and currently runs (along with her GSHA colleagues) GSHA Gives!, a free communication and Executive Function job-readiness training program for previously homeless, incarcerated, and disenfranchised men in inner-city Atlanta.
